Science Statistics & Society

Project for a new FENStatS Magazine

Summary

Currently, the editorial team consists of editors from Italy, Spain, France and Germany. On September 9, 2020 we had the first constitutional meeting of the team.

The journal wishes to offer an international divulgation forum to promote the Statistical Sciences, with the specific aims to foster statistical literacy and discuss relevant topics for the development of Statistical Sciences, by using a modern and simple style. Authors are invited to submit up-to-date high-quality research results in all areas related to Statistics, Social Science and Demography, Economic Statistics, Data Science and Artificial Intelligence. The online journal will be available at:

https://www.sciencestatisticsandsociety.eu/

All papers will follow a referee process by the editorial board.

Editorial board

Corrado Crocetta
President Italian Statistical Society
University of Foggia Italy
