

Biostatistician M/F – Permanent position - Full time **Biostatistics and Epidemiology Office at Gustave Roussy, Villejuif**

About us

Gustave Roussy is an independent, non-for-profit hospital attached to Paris-Saclay University, dedicated to the care of cancer patients and to the development and advancement of biomedical research from the bench to the clinic. Recognized internationally, the medical and scientific teams collaborate to form a unique environment for conducting basic and applied science.

The Biostatistics and Epidemiology Office, in collaboration with its clinical and research partners, is running numerous (inter)national trials from Phase I to Phase III and meta-analyses in oncology.

In this context, the biostatisticians of the unit design and analyse the trials. They can also participate in statistical methodology projects, health economical evaluations and translational research projects. The research activity is part of an INSERM – University Paris-Sud research team (Oncostat team from the large Center for Epidemiology and Population Health - CESP, Villejuif).

Description of main activities

- Biostatistical methodology in clinical research in oncology
- Interactions with clinicians and data managers
- Design and analysis of phase I-III clinical trials: sample size calculation, writing of the design and methodology of protocols
- Running statistical analyses
- Reporting analyses
- Writing of abstracts, communications and manuscripts

Type of studies concerned

- Mainly national or international phase 1, phase 2 or phase 3 clinical trials
- Observational – real world data studies
- Prognostic and diagnostic studies
- Meta-analyses

Requirement

PhD in (Bio)statistics/Public Health/Epidemiology OR Master Degree in (bio)statistics/data science with professional experience in biostatistics / clinical trials.

High level in programming with statistical software packages including SAS® or R.

Fluent in written and spoken English.

Beyond your skills in statistics, you are recognized for your rigor, autonomy and relational qualities.

Characteristics of the contract: Permanent full-time position.

As part of our proactive policy to promote the integration of people with disabilities, all applications received are considered on the basis of equal skills.

Thank you for sending your letter in support of application and a CV to **Nadège Munier** (nadege.munier@gustaveroussy.fr) by indicating in object of the e-mail the reference: **RecrutStat2022**
