

Senior Biostatistician – Permanent position

Capionis is a Consulting company dedicated to Statistics in Health and Life Sciences. Capionis assists its clients with the development of their research and provides tailor-made solutions, which have been technically and scientifically validated.

Capionis is currently expanding its team with a full-time permanent position for a senior biostatistician (M/F). The position is based in Bordeaux (33) in France.

In an autonomous manner, you will take charge of statistical projects in various therapeutic fields, covering all stages of research, from pre-clinical investigations, clinical studies to health economic evaluations, concerning both epidemiological and real life studies.

Profile

- A master or PhD degree in applied statistics in the fields of health and life sciences
- At least 10 years of experience in at least two areas of intervention (pharmaceutical industry, agri-food, animal health, or cosmetology)
- Confirmed experience in at least two fields of expertise of the company (pre-clinical, clinical, epidemiology, health economic modeling)
- Additional experience in an academic environment is a plus (University hospital, University, Research center)
- Proficiency in the use of office suites and good statistical programming skills (SAS and R as a minimum)
- Fluency in English
- Fluency in French or willingness to learn French within 3 years
- Excellent organization skills and the ability to identify priorities
- Autonomy
- Aspiration for excellence and performance
- Team spirit

Mission

- Writing and critical reviewing of study documentation on statistics (proposed methodology, sample size calculations, analysis methods, interpretation ...)
- Identification and implementation of relevant and well adapted statistical analyses
- Preparation and chairing of meetings on statistical aspects
- Propositions concerning orientation of future projects, valorization of results ...
- Anticipation of potential problems and proposition of adapted solutions
- Writing/participation in the drafting of standard or specific operating procedures related to statistics
- Continuous development of personal statistical skills to keep up to date with scientific progress
