Business Data Analyst (F/M)

Main objective of the position and Tasks Description (not limited) :

We are looking for a **business and data analyst** to support the growth of our business across multiple countries in Europe and Africa.

Reporting to the Head Europe & Africa Affiliates you will work with various team's across our businesses in Europe and Africa to prepare MS Excel models, MS Power BI and Tableau Visualizations and various Databases to capture, collate and analyze data with a view to tracking business performance, informing business decisions and developing business strategy.

You will bring the technical expertise necessary to ensure the quality and accuracy of data from various internal and external sources, then process, design and present that data in ways that help our country managers and project developers make better decisions.

You will work closely with business users in both corporate functions and in the countries to understand the questions they wish to answer with data, propose and design possible solutions, and work with users to put these solutions in place. In that context the role will require numeracy and attention to detail combined with creativity and problem solving skills, as well as a sensitivity to good design and strong customer focus and communication skills.

You will take responsibility for managing our various data sets, developing reports, and troubleshooting data issues. To do well in this role you need a very high attention to detail, experience as a data analyst, and deep understanding of the popular data analysis tools and databases.

Specific tasks would include:

- Acquire data from internal and external data sources.
- Review, filter and clean data sets.
- Design, build and manage databases.
- Design, build and manage MS Excel business models.
- Design, build and manage MS Power BI and Tableau Data Visualizations.
- Interpret data and analyze results using statistical techniques.
- Define business users' needs and implement solutions.
- Identify opportunities to extract more business value from data.

At Voltaia we are passionate about **renewable energies!** We are an electricity producer from wind, solar, hydro and biomass, and also a service provider to 3rd party clients such as **Development, EPC, O&M and Distribution.**

Today we are in **17 countries, split among 4 continents**, and offering a **global operating capacity** to our clients. We are listed on the regulated Euronext market in Paris since July 2014.
