

Tenure-Track Assistant Professor in Statistics, Ca' Foscari University of Venice, Italy

Application Deadline: May 6, 2021

The Department of Environmental Sciences, Informatics and Statistics of the Ca' Foscari University of Venice is recruiting a full time Senior Tenure-Track Assistant Professor in Statistics (SECS-S/01 Statistica). The position is for three years: subject to a positive evaluation, the position is converted to a tenured Associate Professorship.

The new hire would join the Statistics group (<https://www.unive.it/pag/41970/>). The teaching load (which is reduced during the tenure track years) would include classes of varying size at bachelor, master and PhD level in Italian or English. Foreign candidates should state in their application that they have adequate Italian language skills or that they do not have adequate Italian language skills but they commit to achieve them.

More information about the call (in Italian and English) can be found at

<https://www.unive.it/data/38002/?id=2021-UNVE000-0022723>

Ca' Foscari University offers a start-up fund for newly recruited researchers and offers funding opportunities, including:

- an annual support to individual researchers;
- co-founded post-doc positions;
- financial support for short-term incoming and outgoing visits;
- financial support for seminars and visiting scholars.

Professors and researchers who have carried out their research activities abroad for at least two consecutive years and who move to Italy acquiring tax residency, are entitled to significant tax benefits. See more at <https://www.agenziaentrate.gov.it/portale/web/english/nse/individuals/tax-incentives-for-attracting-human-capital-in-italy>.

Informal enquiries about the job and the application process can be made to Prof. Carlo Gaetan gaetan@unive.it
