

## Senior Biostatistician – Permanent position

HORIANA is a consulting company dedicated to epidemiology and biostatistics, designing and conducting Healthcare Real-World Studies. Founded by a team of 5 specialists, all of them having more than 15 years of experience in biostatistics, epidemiology, and project management, HORIANA aims to support its clients at all stages of their projects. Our clients are both private and public/academic professionals in the healthcare field.

HORIANA is currently expanding its team with a full-time permanent position for a senior biostatistician (M/F). The position is based in Bordeaux (33) in France, remote position could be an option depending on the profile of the candidate.

In an autonomous manner, you will be responsible of statistical projects in various therapeutic fields, covering all stages of epidemiological and real-world studies (RWS), on primary research or secondary databases.

### Profile

- A master or PhD degree in applied statistics in the fields of health and life sciences
- At least 8 years of relevant experience as a biostatistician in a CRO, pharma or academic environment
- Confirmed experience in RWS or clinical studies
- Proficiency in the use of office suites and good statistical programming skills (SAS and R as a minimum)
- Good knowledge on regulatory standards (ICH, FDA, EMA, ENCEPP, HAS...)
- Fluency in English
- Autonomy, excellent organization skills and the ability to identify priorities
- Ability to anticipate problems, propose adapted solution and communicate effectively in and outside the company
- Aspiration for excellence and performance
- Team spirit

### Mission

- Lead all biostatistics activities related to the study as responsible project statistician
- Writing and critical reviewing of study documentation on statistics (methodology, sample size calculations, statistical analysis plan, analysis methods, interpretation ...)
- Identification and implementation of relevant and well adapted statistical analyses
- Deliverables of the studies ensuring quality standards and timelines
- Preparation and chairing of meetings on statistical aspects
- Propositions concerning orientation of future projects, valorization of results ...
- Writing/participation in the drafting of standard or specific operating procedures related to statistics
- Continuous development of personal statistical skills to keep up to date with scientific progress

Salary according to skills and experience
