

Position: Biostatistics Student Intern

Location: Boudry (Switzerland)

Manager: Roland MARION-GALLOIS

At Bristol Myers Squibb, we are inspired by a single vision - transforming patients' lives through science. In oncology, hematology, immunology and cardiovascular disease - and one of the most diverse and promising pipelines in the industry - each of our passionate colleagues contribute to innovations that drive meaningful change. We bring a human touch to every treatment we pioneer. Join us and make a difference.

Position Summary

Mentored by an experienced statistician, the Student Intern will receive an internship topic and will contribute in specific research questions related to statistics in clinical research, pre- or post-development. Part of this, the Student Intern may actively participate to any statistical activity for a clinical study.

The Student Intern will benefit from BMS working environment and be fully integrated in the Boudry Biostatistics group.

The candidate will become more familiar with the drug development process with regards to study designs and study conduct, as well as regulatory requirements.

Internship should be considered part of the student education and the work contribute partly/fully to his/her studies.

Key Responsibilities

The Student Intern will have to deliver an internship report, in alignment with requirements from his/her university. For BMS internal use, the student will develop a PowerPoint presentation of his/her work and findings, and a possible guidance document.

Internship outcomes may lead to publications and further research.

Qualifications & Experience

- Internship is 6 months, as part of the university.
- Offered to Master or PhD student in Statistics (ideally Medical Statistics / Biostatistics) with good understanding of basic methodology of clinical research.
- Good working knowledge of using SAS (and/or R) and MS Office products (Word, Excel, PowerPoint).
- Ability to work both collaboratively as part of a team and independently.
- Good verbal communication skills, ability to write clearly and effectively, in English language.
- Strong interpersonal skills with professional attitude.

- Owning, or able to obtain, permit to work in Switzerland
- Must not be employed at the time the internship starts.

Why You Should Apply

Around the world, we are passionate about making an impact on the lives of patients with serious diseases. Empowered to apply our individual talents and diverse perspectives in an inclusive culture, our shared values of passion, innovation, urgency, accountability, inclusion and integrity bring out the highest potential of each of our colleagues.

Bristol Myers Squibb recognizes the importance of balance and flexibility in our work environment. We offer a wide variety of competitive benefits, services and programs that provide our employees with the resources to pursue their goals, both at work and in their personal lives.
