

POST DOC POSITION IN STATISTICS
UNIVERSITE LIBRE DE BRUXELLES

Applications are invited for a post-doctoral position in Statistics at the Mathematics Department of the Université Libre de Bruxelles (ULB) in Brussels, Belgium. The research topics of the Mathematical Statistics team include (but are not limited to) asymptotic theory, nonparametric methods, directional statistics, optimal testing. The precise topics of the research will be discussed with the candidates, taking into account their own background and interests. The interested candidates should have:

1. a PhD in Statistics, Mathematics or equivalent;
2. a good background in Statistics and/or Mathematics;
3. must not have resided or carried out their main activity (employment, studies, etc.) in Belgium for more than 24 months during the 3 years immediately preceding the starting date.

The successful candidate will be offered a research position for one year. The salary is fixed in accordance with university guidelines for post-doctoral researchers. Application letters with a CV, list of publications, a short description of the research topics of the candidate (2/3 pages) and the names (and email addresses) of two reference persons (they may be contacted by us) should be submitted by e-mail to Thomas Verdebout (thomas.verdebout@ulb.be). The starting date of the appointment is planned during the Spring 2022. The deadline for the application is May 1, 2022.
